

Pip & Arrow

Rabbitry Terms of Sale

Updated February 22, 2015

It will be assumed that you have read the Terms of Sale in its entirety before contacting Pip & Arrow about purchasing a rabbit.

Pip & Arrow Farm does not sell pets.

Though many small homesteads and fiber enthusiasts choose to house their fiber rabbits indoors, the Farm sells working livestock only. If you are looking for an adoptable house rabbit, please contact our local House Rabbit Society Chapter, [Alabama EARS](#), or the [Greater Birmingham Humane Society](#) for information about adopting a shelter bunny.

Show rabbits are \$100 each. (\$75 to 4H or ARBA Youth Showmen/women)

Brood rabbits are \$75 each.

Wooler rabbits are \$50 each.†

Accepted payment methods include cash, cheque, or money order.

Each rabbit will leave Pip & Arrow Farm with:

- a one-week supply of the food he/she has been eating in order to ease the transition onto your barn's/household's diet,
- a care package of any familiar toys, grass hay, and treats,
- up to one month's supply of any special medication particular to the rabbit (if applicable),
- official pedigree, copies of associated pedigrees from related barns, and any applicable registration papers,
- a copy of the signed Terms of Sale.

No rabbit will leave Pip & Arrow Farm until it has reached at least ten weeks of age.

Rabbits sold as show and/or breeding stock will be provided with pedigrees and any relevant registration papers. Those rabbits who are sold as wooler stock will be provided with a pedigree to prevent the loss of important genetic information, but woolers are not recommended for breeding. Pedigrees will be marked accordingly and left ears tattooed "WOOLER".†

Pedigrees should not be altered without consultation. Please discuss discrepancies with the farm. This will help everyone involved keep accurate records as well as track genetic outliers. The farm is always interested to hear what you have found in your related lines and will also share any updated information with anyone involved. If you have a rabbit with PIP'S in the pedigree without a signed copy of it's original

pedigree, I cannot guarantee the accuracy of the information provided. Please [contact me](#) at any time with questions or concerns you may have about a PIP's rabbit. I will respond as quickly and fully as I can and if I do not know the answer, I will do my best to find it.

Rabbits are to be paid for in full before leaving Pip & Arrow Farm. In the case of payment upon pickup, only cash will be accepted.

A 50% deposit is required to hold your rabbit. Rabbits can be held for 30 days. If the remainder of payment is not received within 30 days of receiving the deposit, the deposit will be forfeit and the rabbit re-listed for sale.

If for some reason you cannot pick up your rabbit within 30 days of your deposit, Pip & Arrow can board your rabbit at a rate of \$1.00 per day for up to 60 additional days. The rabbit must be paid for in full to be eligible for boarding at Pip & Arrow Farm. If full payment is not received within 30 days of the initial deposit, the deposit will be forfeit and the rabbit re-listed for sale. If the rabbit is not picked up within the 60 additional days, then any fees and deposits will be forfeit and the rabbit re-listed for sale. *If your rabbit must stay longer than 60 days, Pip & Arrow will be happy to work out a solution with you, but these special arrangements must be made before the end of the 60-day boarding period.*

A transportation fee of \$25 will be applied to all deliveries. Pip & Arrow does not ship rabbits. If you require us to deliver a rabbit to you at a certain location, please make the proper arrangements with us in advance.‡

If your new rabbit requires a travel crate, please make arrangements with us in advance.

There is no guarantee that every Pipinarrow rabbit will win shows or produce show winners.

When purchasing Wooler stock, the buyer agrees to refrain from breeding the animal.† Should the animal be bred despite this, either by intent or accident, Pip & Arrow will not be held responsible for any faults or defects among the offspring.

Each rabbit is guaranteed to be in good health and condition upon pick-up. If the rabbit suffers illness or injury prior to pickup, a full refund will be issued and the rabbit will remain with Pip & Arrow, free of charge, until the issue can be resolved.

Pip & Arrow is not responsible for any illness or injury incurred after leaving Pip & Arrow Farm. *Please take care of your bunny!* Should you run into any trouble with your rabbit in the future, Pip & Arrow would be most happy to offer advice and/or to connect you with any care services your rabbit may require. However, Pip & Arrow will not be held financially responsible for your rabbit once it leaves the Farm.

Pip & Arrow reserves the right to refuse the sale of any rabbit at any time, without explanation or warning. If Pip & Arrow cancels the transaction at any time for any reason, a full refund will be issued.

Pip & Arrow does not conduct rabbit sales to unknown individuals during the month of the Easter holiday.

Pip & Arrow offers a buy-back policy for rabbits whose homes have become incompatible with their needs. If for any reason you can no longer care for your rabbit, please contact us to discuss returning your rabbit to Pip & Arrow Farm. Depending on the situation, Pip & Arrow may offer to buy back your rabbit at the rate of \$25 per animal. There is no transportation fee for our buy-back program.

By signing this Rabbitry's Terms of Sale, the buyer agrees never, under any circumstances, to surrender a Pipinarrow rabbit to any Animal Shelter or Rescue Organization. If for any reason the buyer can no longer care for the rabbit, he/she agrees to contact Pip & Arrow Farm to initiate a buy-back or return.

*†Rabbits sold as wooler stock are those rabbits who exhibit quality fiber but have been judged to be unsuitable for breeding either by genetic fault or defect, which may or may not be visible. These animals would pass on the fault to their offspring and therefore should not be bred. A common example is mismatched eye color, wrongly-colored toenail, improper tail carriage, or the recessive carry of such a trait, which does not adhere to the ARBA Standard of Perfection. ‡It may be possible for Pipinarrow rabbits to travel via the Drift. Please **contact me** for more information.*

I agree to the above Terms of Sale.
